GREETINGS FROM DOWNTOWN BOSTON, where Suffolk University has transformed students’ lives since 1906. On our campus—ideally located amid top employers in the city’s financial, political, medical, legal, and cultural communities—we open the door to experiential learning, faculty mentoring, and career-related opportunities that help students find their passions and run with them.

WE CALL IT THE SUFFOLK EXPERIENCE. IT WILL TRANSFORM YOUR STUDENTS’ LIVES.

No wonder both the Princeton Review and U.S. News & World Report rank us among the nation’s best higher education institutions.

I invite you to read more about the exciting things happening here. If you have any questions about life at Suffolk, please let us know.

Sincerely,

Marisa Kelly
President

**At Suffolk, I’ve learned it’s never too late to follow your passion. At the end of my freshman year, I changed majors. That decision was terrifying but it’s been the best one I’ve made. Exploring the arts and architecture in Boston while studying them in the classroom gives you constant exposure to new and exciting ideas.**

**AT SUFFOLK, INVALUABLE EXPERIENTIAL LEARNING LEADS TO VALUABLE DEGREES.**

With help from faculty and alumni mentors, students pursue prestigious internships and complement their time in the classroom with hands-on opportunities. Our students make a difference in Boston and beyond by:

- Conducting market research for clients like the Boston Celtics and Roche Bros. Supermarkets
- Inspiring children’s creative writing efforts
- Serving as poll workers on Election Day
- Helping the Massachusetts Department of Environmental Protection preserve our ecosystem
- Presenting their data analyses to local businesses
- Logging 30,000+ hours of community service
- Pursuing endless possibilities
WE CELEBRATE DIVERSITY.

Our students’ different cultural backgrounds, perspectives, and interests enrich our inclusive University community.

Kids where I’m from don’t typically end up going to college. I’m the anomaly in my old neighborhood, but it’s still a place I call home. I was given the opportunity to attend Suffolk University. I had to take it for myself, my friends, my supporters, and younger kids to show them that anything that seems impossible is possible with hard work.
